WORK EXPERIENCE

Wildoc Computer Center.

Software Engineer and Web Development Instructor.

(January 2011 - October 2013)

• I was part of the team that developed the company official web application for student registration and online registration platform. I am also in-charge of delivering web development classes to the registered student in the section by teaching them HTML, CSS and JavaScript. I also introduce them to web development application that is widely use as of 2011 which are Dreamweaver and Web page Maker

Vidaya Technologies.

Software Engineer.

(January 2018 - November 2018)

• I did one year contract staff for Vidaya Technology by helping them build an online delivery and logistic management system.

Ethnos IT Security, Lagos.

Penetration Tester (Pentest).

(January 2019 - September 2019)

• Helped the newly setup branch of Ethnos Security by recruiting and managing their security team of expert.

Allianz Insurance

Retail Corporate.

(February 2020 - March 2020)

• I worked with Allianz Insurance as part of my NYSC service program, where i was part of the retail corporate team.

Life Learners Ltd

Mobile and Web Application Developer.

(February 2020 - November 2020)

• In Life Learners Ltd, i was part of the team that built "Testar Mobile Application" which aids secondary students that are embarking on final examination e.g WAEC, NECO and JAM to prepare for the exam by developing a mobile application (Testar) that provides past questions and answers in form of a game for them to play around with and build a retentive and strong memory of such questions for future references. Testar application is an online question and answer platform that encompasses of past questions from 2010-2018. you can check out the application here: <http://www.cquiz.com.ng>
